

NEW INITIATIVES

Univariety

The school provides carrier guidance to the students of classes 9 to 12 through Univariety - A global counseling company to cater our students' career related problems. It is India's Most Comprehensive, Collaborative & Responsive Career Guidance Ecosystem. It received the 'Best Career Guidance Company of the Year' award at the EdTech Review 2020 awards

Univariety foresees lots of benefits to the school and students by getting the school website integrated. For eg:

- Schools can showcase the parents and prospective parents that they do not need to spend extra for any kind of career guidance. They have an activity calendar updated and informed about the activities done in the school towards the career guidance.
- It gives them the information about school Alumni and their college joined.
- When you think from the student's point of view, he or she can directly log into the Univariety portal from the school website.
- They have a calendar which shows the activities coming up etc.
- Weekly workshops on various topics are planned for career and education in India as well as in overseas.
- Personalized career counseling is available on demand.

Univariety is the one stop solution of all the education, admission and career related concerns. Currently 140 students from grade 9th to 12th have created their profile and getting constant support, information and broader outlook for life and career.

ONLINE PARENTS' INTERFACE PROGRAM

Education is a shared commitment between dedicated teachers, motivated students and enthusiastic parents!

Society and schools are inextricably linked. In fact, schools are just a reflection of the society. Parents are not only the key stakeholders, but also contribute significantly to students' accomplishments in the educational process, thereby creating an optimistic environment. We strongly believe that parents' and grandparents' knowledge and wisdom is an invaluable resource that will lead our children to the pinnacle of success.

Accordingly, school took the initiative of conducting Parents Interface Program for obvious reasons. Various parents have addressed the students on topics such as career options, utilizing one's time positively, maintaining calm and inner balance during the time of pandemic.
